ACCREDITATION OF TOURNAMENTS *AND TOURNAMENT DOCUMENTATION*

ACCREDITATION OF TOURNAMENTS

1. UK Record Status

- (a) GNAS may accord *UK* Record Status to a tournament at which *UK* Records may be claimed. A club, county, region or associated organisation that wishes to hold a *UK* Record Status tournament should apply to GNAS on the appropriate form, specifying the rounds requiring *UK* Record Status. *UK* Record Status tournaments shall be:
 - (i) Open to all GNAS members.
 - (ii) Open to all bowstyles recognised in the Rules of Shooting for the particular discipline, with the exception of crossbows for which GNAS do not maintain *UK* records.
- (b) In addition, *UK* Record Status may be accorded to GNAS-organised events, Inter-Regional, Inter-County and similar closed tournaments.
- (c) Applications must be signed by an officer of the organisation submitting the request and accompanied by the appropriate fee. Applications must be received by the GNAS Office:
 - (i) For Field events – at least 3 calendar months prior to date of the tournament.
 - (ii) For other events – at least 6 calendar months prior to date of the tournament.
- (d) *UK* Record Status tournaments must be conducted in accordance with the appropriate standards as outlined in the separate sections of the Rules of Shooting.
- (e) If the tournament is:
 - (i) A repeat of the previous year's *UK* Record Status event, the GNAS office will link the new application with the previous year's report.
 - (ii) A new *UK* Record Status tournament, the application should be accompanied by evidence that the organisation is appropriate to run a *UK* Record Status tournament in the specified location. The evidence should comprise the following documentation from a similar event:
 - a. An entry form.
 - b. A results sheet.
 - c. A report from a judge.
- (f)
 - (i) If the request is granted, the application form will be endorsed and returned. The form includes much of the documentation required by GNAS after the shoot.
 - (ii) If the request is not granted, the applicant will be advised by GNAS and the fee returned.
- (g) At the end of the shoot the various elements of the form must be completed:

However, the documentation contains space for archers to enter claims for Rose Awards.

3. World Record/FITA Award Status

- (a) On behalf of FITA, GNAS accords World Record/FITA Award Status to appropriate tournaments. Any tournament at which FITA awards may be gained or world records set must have World Record/FITA Award Status. World Record/FITA Award Status tournaments must be conducted in accordance with the standards outlined in FITA Constitution and Rules.
- (b) A club, county, region or associated organisation that wishes to hold a tournament with World Record Status/FITA Award Status should apply to GNAS generally in the manner prescribed for *UK* Record Status events. Exceptionally, if there is no appropriate area/regional organisation, the application should be sent directly to GNAS.
- (c) The administrative procedures before and after the event are identical to that for *UK* Record Status tournaments. However, the documentation contains space for archers to enter claims for FITA Awards.
- (d) Organisers of World Record Status/FITA Award Status tournaments should note the timescales for the submission of World or European record claims, as given in Shooting Administrative Procedure 5.

12. The Scoresheet – Optional Information. It is recommended that the scoresheet also shows any data that will affect the awards. This will give an archer the opportunity to advise if corrections need to be made.

13. The Results Sheet – Essential Requirements. The mandatory results sheet is the definitive record of each archer's performance. Among other purposes, it is used with the scoresheet, to substantiate claims for records and awards and therefore it must contain all the relevant information. The results sheet must indicate that the document is a results sheet and it must include the following:

- (a) Name of event.
- (b) Date(s) of event.

 - (i) Each column is to have a heading.
 - (ii) The first column is to show the archers position in the order of merit within that list
 - (iii) Archers are to be identified by forename and surname and the club or other affiliation is to be shown.
 - (iii) For Gents/Ladies/Cadet Ladies FITA and GNAS Metric Rounds only. The 4 distance totals. The title of the columns is to indicate the distance shot, eg 90m, 70m etc.
 - (iv) The total score is to be shown, together with the totals of tie break data (see paragraph 16 below).
 - (v) Archers are to be listed in descending order of score total and tie break totals.
 - (vi) Juniors are to be integrated into the correct round/gender/bowstyle list. A letter "J" is to be shown after their surname.
 - (vii) An archer who retires during the shoot is to be shown together with the totals at the point of retirement. It is to be indicated that the archer retired and the number of arrows shot is to be shown. Archers who retire are to be shown after those who complete the shoot.
- (k) Details of archers who entered but who did not shoot. These details may be shown at the end of the round/gender/bowstyle lists described above or may be given elsewhere on the Results List.

14. The Results Sheet – Double Rounds

- (a) Where a double round is being shot, the results sheet is to show the total score and the tie break details for each round and also for the double round. Archers are to be listed in double round score/tiebreak data order. Where distance totals are required they must be shown for each round but double round distance totals are not required.
- (b) An archer who shoots just one round at a double round tournament is to be included in the listing along with archers in the same round/gender/bowstyle group who shot the double round.

- (c) Details of FITA or GNAS awards claimed, eg FITA Stars, Rose Awards etc
- (d) Narrative comments and/or thanks by the tournament organiser

16. Tie-Break Data The winners of an event are decided by the score achieved. If two or more archers are tied on score, tie break data is used to decide the winner. Therefore, and as indicated above, scoresheets and results sheets must include this data. The tie break data required is identified in the GNAS Rules of Shooting or the FITA Constitution & Rules, to which reference should be made. Note that FITA target rounds, FITA field rounds and GNAS metric target rounds (when shot to FITA standards) do not use the number of hits as tie break data and therefore, to avoid confusion, the number of hits should not be shown for these rounds.

17. The Olympic Round and the Indoor Match Round (Target Archery). These rounds involve head to head match play and are preceded by a qualification round. The results sheet is to contain full details of the qualification round as detailed above. In addition, for match play rounds, two presentations of the results are required within the results sheet as follows:

- (a) An order of merit showing each archers score in each match. Archers are to be shown in descending position order. Positions 1 to 4 will be as decided by the gold and bronze finals matches. Archers eliminated in earlier rounds will be ranked by round (1/4 finals, then 1/8 elim, then 1/16 elim etc) and then according to their losing score. Archers with tied losing scores will be ranked equal.
- (b) A match play chart showing each archer's seed number for the first match round, who shot against whom in each match and each archer's score in each match. Match tiebreak arrow values need not be shown.

18. Field Archery Elimination and Finals Rounds. These rounds involve knock-out and match play rounds. The Results Sheets is to provide details of these rounds in formats equivalent to those used for target archery match play rounds as described in para 17 above.

19. Special Circumstances.

- (a) *Flight Shooting.* The procedures outlined above are to be adhered to except where it is self-evident that they do not apply to flight shooting. Equivalent document formats are to be produced.
- (b) *Traditional longbow target shooting (two-way).* GNAS does not recognise traditional longbow target shooting for record purposes. Therefore, organisers may produce scoresheets and results sheets that meet their needs.
- (c) *At a multi session event, archers may compete only once. However, they may shoot more than one session at the tournament organiser's discretion. The performance of archers shooting more than once is to be shown in the results sheet, either in a separate round/gender/bowstyle group with an appropriate title, or within the main group, in which case it must be clear that this is a second (or third etc) shoot and no order of merit position is to be given.*
